MEi:CogSci Learning Contract

for the Into Research II Module (10 ECTS)

INFO FILE

1 Student Information¹

Student Name	First name, last name
Student ID Number	
Degree Programme Code	
Name of Supervisor	

2 Into Research II Module – Learning Outcomes*

Subject specific

- Gain experience in a selected question and methodology relevant to cognitive science

Methodological

- Ability to produce, process, analyse and interpret data of a small research project
- Ability to conduct a small research project, write an abstract, and present the project as a poster

Generic/Instrumental

- Ability to defend one's research project and constructively deal with critical commentary
- Ability to appreciate and critically discuss scientific work of colleagues
- Ability to solve problems in a small research project
- Ability to identify individual lack of knowledge and methodology, acquire, and utilize methodological knowledge in the context of a small research project

Interpersonal

- Ability to organise and conduct basic research in an interdisciplinary group
- Ability to appreciate and critically discuss scientific work of colleagues

Systemic

- Ability to appreciate and critically discuss scientific work of colleagues
- Ability to solve problems in a small research project

*This is a reminder of the goals of this module (see MEi:CogSci curriculum).

¹ By handing in this document, the student declares that their personal data which they provided for the university they is currently enrolled at (e.g. via the university's online information system) is correct and complete. Where necessary, the student corrected and/or completed the personal data to the best of their knowledge or has officially requested a correction/completion of their personal data.

2.1 General Project Information

Project Title	Supervisor	Teamwork/Co-Student (if applicable)
Title of your project	Name of supervisor	In case you are doing your project together with another MEi:CogSci student, specify their name here

2.1.1 Summary of Topic/Phenomenon and Personal Goals (3000-5000 characters)

Here you should specify the topic of your project, why you want to do this project and where you see its relevance for the field of cognitive science. Write a short (3000-5000 characters) description.

3 Project Specifications

Please specify the concrete workflow of your project.

The structure and content of the project specifications differs depending on the kind of project you are planning. Your project can be:

- an empirical/experiment-based project
- a theoretical project
- a modelling project

Please make sure to choose the correct template and plan your project along the pre-defined project steps.

These products are compulsory:

1. a **lab journal** for the ongoing (!) documentation of your project (it should contain ideas, literature reviews, protocols of meetings/reviews, lab-procedures, etc.)
2. a **one-page abstract of your project for submission for the MEi:CogSci Conference** (submission dates according to seminar)
3. **two reviews of colleagues' abstracts** (submission dates according to seminar)
4. a **poster for presenting the results of the project at the MEi:CogSci Conference** (submission dates according to seminar)

(If you are going to a spring/summer school you can propose it to be part of this module - for the IK at Günne that would be 2 ECTS.)

3.1 Project Steps

Initial Literature Research (Overview)				Total Working Hours (WH)/ECTS: ____ / ____	
Working-package (WP)	Start – End	WH / ECTS	Activities	Resources required	Milestones (M)
WP Initial 1	month/year – month/year	WH / ECTS (1 ECTS = 25 WH)	Describe activity, tasks, etc. (e.g. gaining an overview of relevant theories, concepts, and paradigms, reviewing existing studies on subject xy, creating annotated bibliography, writing literature notes...)	Resources/means required to achieve the task (e.g. access to literature, journals, libraries, data bases, ..)	e.g. M1 Lit.1
WP Initial2					
...					

Formulating Research Question and Theses				Total WH/ECTS: ____ / ____	
Working-package (WP)	Start – End	WH / ECTS	Activities	Resources required	Milestones (M)
WP Theses1	month/year – month/year	WH / ECTS	e.g. formulating guiding questions/research questions and corresponding hypotheses, theses, or assumptions (depending on whether your project is e.g. mainly descriptive, theory/theses-testing, theory-generating, ...)	e.g. literature, consolidation time with supervisor	e.g. M2 Theses
WP Theses2					
...					

Focussed Literature Research & Analysis (on Sub-Topics/Concepts)					Total WH/ECTS: __ / __
Working-package (WP)	Start – End	WH / ECTS	Activities	Resources required	Milestones (M)
WP Focus1	month/year – month/year	WH / ECTS	e.g. focussed literature research, review and analysis of a relevant concepts/ theories/ studies identified (on one sub-topic/ concept of the topic/phenomenon of interest, e.g. emotion recognition and emotional expression as sub-topics of “emotions”)	e.g. literature, access to previous studies/work, access to data bases, computer, ...	e.g. M3 Lit.2
WP Focus2			Focussed research on sub-topic 2, ...		
...					

Synthesis of Findings/Insights					Total WH/ECTS: __ / __
Working-package (WP)	Start – End	WH / ECTS	Activities	Resources required	Milestones (M)
WP Synth1	month/year – month/year	WH / ECTS	e.g. Synthesis and contextualisation/integration of sub-topics/concept in regards to the topic of interest xy	e.g. access to data bases/libraries, computer, consolidation time with supervisor, ...	e.g. M4 Synth
WP Synth2					
...					

Project Documentation				Total WH/ECTS: __ / __	
Working-package (WP)	Start – End	WH / ECTS	Activities	Resources required	Milestones (M)
WP Docu1	month/year – month/year	WH / ECTS	Project documentation (e.g. lab journal, short bi-weekly reports on project status, etc.) as agreed upon with supervisor	E.g. computer/laptop, consolidation time with supervisor, ...	e.g. M4 Docu start
...					

3.2 Project Milestones

Mile-stone	Result/"Product" and/or Deliverables
M1 Lit	Description of result/"product"; the "outcome" of activities/tasks necessary to successfully continue the project and/or proceed to the next WP (e.g. literature notes on relevant studies finished, relevant sub-topic/concepts identified across different disciplines, crucial theories/models on topic xy identified and analysed, ...)
M2 Theses	...
...	

4 Agreement Signatures

Notice:

Student and supervisor have to sign the contract at the beginning of the project, thereby agreeing to the project specifications and deliverables.

Date, signature of **student**

Date, signature of **supervisor**

5 Grading

Final grade for the project

Date, stamp & signature of supervisor
